Thinking While Moving in English

The **Thinking While Moving in English** workshop **(Course Code RG03223)** targets primary teachers interested in integrating physical activity into their classroom teaching of English.

Thinking while Moving in English (TWME) is designed to enhance teachers' understanding and competence to plan, deliver and evaluate movement-based learning in primary school English lessons. The concept is founded on the highly successful Thinking while Moving in Maths pedagogy that has been promoted through the NSW School Sport Unit's teaching professional learning program since 2014.

Teacher learning involves attendance at a one day training workshop, implementation and advocacy of the program in the school setting, monitoring of student progress and completion of evaluations by students and colleagues. Course participants are required to upload evidence of learning to MyPL after the pedagogy has been introduced to schools.

This **short video** (2.05 mins) outlines the Thinking while Moving approach and the benefits from the perspective of teachers, researchers and students.

The department's School Sport Unit will provide relief costs for two teachers per DoE school for this workshop in Term 1 and Term 2, 2019.

Completing *Thinking While Moving in English* will contribute 8 hours of NSW Education Standards Authority (NESA) Registered PD addressing 1.2.3, 2.5.3, 4.1.3, 6.3.3 from the Australian Professional Standards for Teachers towards maintaining Proficient or Highly Accomplished Teacher Accreditation in NSW.

Date	Venue	Time	Cost
13 March 2019	Avoca Beach Public School	8:30am to 3:00pm	$220 (Non DoE $286)
